01 Experience

Chief Technology Officer
Present

Ofarandagon

Lead the studio's technical direction across web products, applications and business automation. Combine technical leadership with hands-on development.

Chief Technology Officer
early 2026 - present

Hizmatrason

Lead the technical direction of the product group: FaceID (face- and geo-based time & attendance), electronic queue, services aggregator. End-to-end architecture, engineering processes, hiring and mentoring, production ownership. Stack: ASP.NET Core + PostgreSQL + React Native, integrations with Hikvision, iiko, Telegram.

Freelance Full Stack Developer
2022 - present

Self-employed

Design, build and ship web and mobile applications for clients end to end. Backend on ASP.NET Core + PostgreSQL, frontend on Next.js / React, mobile on React Native. Built automated call centers, B2B systems, e-commerce, streaming and fintech projects. Own the full lifecycle: architecture, delivery, deployment, maintenance.

Contract Full Stack Developer
mid-2025 - end-2025

Orzu IT LLC, Dubai

Worked on a cryptocurrency product at Orzu IT LLC in Dubai. Full-stack development in a team.

Full Stack Developer
early 2024 - end-2025

VatanICT

Government projects under NDA; CRM and banking systems. Domain model, integrations, security, production maintenance.

Full Stack Developer
early-2024 - mid-2025

Rahsh Taxi

End-to-end development of a ride-hailing aggregator. Built a mobile call center for operators.

System Administrator & 1C:Enterprise
2023 - 2024

Diyor retail chain

Sole IT support for a retail chain - tills, data exchanges, reports. Kept 1C:Enterprise configurations and integrations running under pressure.

02 Selected projects

TeaSIP

Telephony, AI and customer service

Platform architecture, backend and infrastructure for SIP / WebRTC telephony, voice and text AI agents, a shared inbox, visual flows and analytics.

FaceID

Time and attendance

A system combining face recognition, geolocation and Hikvision integrations, with an ASP.NET Core backend and React Native application.

EthnoCart

E-commerce marketplace

Web development for a marketplace bringing stores, restaurants and home cooks together.

03 Skills

Backend	ASP.NET Core (.NET 10) / PostgreSQL · EF Core / REST APIs · auth · background jobs · integrations
Frontend	Next.js · React / TypeScript / WebGL (Three.js / R3F) · GSAP
Mobile & IoT	React Native (Android) / Face recognition · geofencing / Hikvision · iiko · Telegram bots
Enterprise & B2B	1C:Enterprise / CRM & banking systems / Automated call centers (IVR, routing)
Practices	Architecture & team leadership / i18n · SEO · accessibility / Docker · CI/CD · Core Web Vitals

04 Languages

Russian - native · English - professional · Tajik - native

OPEN TO WORK

Engineering · Architecture · Technical leadership
