EXPERIENCE

Chief Technology Officer · Hizmatrason early 2026 - present

- Lead the technical direction of the product group: FaceID (face- and geo-based time & attendance), electronic queue, services aggregator.
- End-to-end architecture, engineering processes, hiring and mentoring, production ownership.
- Stack: ASP.NET Core + PostgreSQL + React Native, integrations with Hikvision, iiko, Telegram.

Freelance Full Stack Developer · Self-employed 2022 - present

- Design, build and ship web and mobile applications for clients end to end.
- Backend on ASP.NET Core + PostgreSQL, frontend on Next.js / React, mobile on React Native.
- Built automated call centers, B2B systems, e-commerce, streaming and fintech projects.
- Own the full lifecycle: architecture, delivery, deployment, maintenance.

Contract Full Stack Developer · IT company, UAE (Dubai) mid-2025 - end-2025

- A year in the UAE working on a crypto product.
- Full-stack development in a team.

Full Stack Developer · VatanICT early 2024 - end-2025

- Government projects under NDA; CRM and banking systems.
- Domain model, integrations, security, production maintenance.

Full Stack Developer · Rahsh Taxi early-2024 - mid-2025

- End-to-end development of a ride-hailing aggregator.
- Built a mobile call center for operators.

System Administrator & 1C:Enterprise · Diyor retail chain 2023 - 2024

- Sole IT support for a retail chain - tills, data exchanges, reports.
- Kept 1C:Enterprise configurations and integrations running under pressure.

SKILLS

Backend

- ASP.NET Core (.NET 10)
- PostgreSQL · EF Core
- REST APIs · auth · background jobs · integrations

Frontend

- Next.js · React
